The Evening Grosbeak got as far as Jackson this winter 3 Feb to 20 Apr, photographed (WH), and was last seen in B'ham on 8 May (AF) 4 days earlier than last year's record. Although Purple Finches were numerous--113 on B'ham Spring Count 11 Apr (B.A.S.) and 84 banded this March and April (MEM)--the species was last recorded just before setting record extremes. Even more numerous was the Pine Siskin, last seen on the coast on 22 Apr, Dauphin Is. (LRT) and in B'ham on 9 May (TAI); 143 recorded on 11 Apr (B.A.S.). Last reported Red Crossbills were 2 in Mt. Brook, B'ham on 18 Apr (HBT). A Henslow's Sparrow during a lull on rainy 17 Apr was adept at staying hidden in a grassy field, but when flushed into a tree perched in plain sight (TAI). A Lark Sparrow on Dauphin on 25 Apr (A.O.S.) is only the second spring record for the coast. Two Lincoln's Sparrows banded on 20 Apr on Dauphin (MEM) are the latest for the coast by 7 days.

Observers (Local reporters in capitals)--Alabama Ornithological Society, Lois P. Archer, Gussie Arnett, THOMAS Z. ATKESON, J. Russell Bailey, Naomi G. Banks, Andrew K. Bates, Raymond D. Bates, Birmingham Audubon Society, Jimmy J. Brown, Robert E. Burks, WILLIAM J. CALVERT, FAIRLY CHANDLER, Perry C. Covington, Walter F. Coxe, Earl Cunningham, Thase Daniel, J. L. Dorn, S. J., Ann Fish, MARY A. GAILLARD, William Hamrick, Sybil C. Hanks, R. E. (Tuck) Hayward, VERDA D. HORNE, John M. Imhof, Thomas A. Imhof, Harry and Kathleen Johnstone, Helen H. Kittinger, RICKY J. KITTINGER, Ronnie D. Kittinger, James Key, Mary Key, CURTIS L. KINGSBERY, Kenneth T. Knight, John R. Lester, Louise McKinstry, Ann Miller, MARGARET E. MILLER, Alice Patterson, Morton H. Perry, M. F. Prather, Robert R. Reid, Pat A. Riley, Jessee Short, W. A. Short, W. Temple Siebels, Eugene B. Sledge, Idalene F. Snead, Henry M. Stevenson, Alice G. Tait, Helen B. Thigpen, Lib R. Toenes, A. AOS MEETINGS

Livingston and Epps Alabama

Site of Fall 1970 Meeting

OCTOBER 23-24-25
Meeting Begins Friday 23
with Boat trip and supper
on the Beautiful Tombigbee.
Boat trip and Dinner on Board \$2.50
Reservations Must be Received Oct. 15 or before.
Livingston Inn Motel headquarters
Camping area at Epps, site of Fort
Tombecbee...Built by Bienville - 1705

Continued on page 11

Seven Christmas counts were again conducted in Alabama in 1969 and, although there were two changes from 1968, there again was at least one from each major ecological region in the state--Wheeler National Wildlife Refuge (WWR) in the Tennessee Valley, Birmingham (Bhm) and Jacksonville (Jvl) in the Mountain Region, Auburn (Aub) in the Piedmont, Eufaula National Wildlife Refuge (EWR) in the Coastal Plain, and Mobile (Mob) and Dauphin Island-Bellingrath Gardens (DI) on the Gulf Coast.

This was the first Christmas count conducted at Eufaula Refuge and, as testimony to development of the wildlife management program there, state records in abundance were recorded for Wood Ducks (1,500) and Common Goldeneyes (1.000) and, with the exception of records at Wheeler Refuge in previous years, for Mallards (16,000), Black Ducks (3,000), Ring-necked Ducks (1,500), Great Blue Herons (448) and Hooded Mergansers (100). In addition, inland records for the coastal plain were set for Pintails (2,500), Green-winged Teals (2,000), Am. Widgeons (1,500), Gadwalls (700) and Shovelers (500). The count also included the first known winter records in the lower coastal plain for Snow Goose, Bonaparte's Gull and Caspian Tern as well as lower coastal plain records in abundance for Red-tailed, Red-shouldered and Marsh Hawks, Least Sandpipers, Ringbilled Gulls, and Savannah and Vesper Sparrows (the latter also a state record) plus the large number of 4,000 Coots. The feeding program at the refuge probably accounted for the over 2,000 Mourning Doves and the state count record of 60 Ground Doves. The Mourning Dove was also attracted by golf courses and suburban feeders, as evidenced by a count record in abundance for the Mountain Region set at Birmingham, and the Ground Dove appeared in good winter numbers on the Dauphin Island count.

Wheeler Refuge had its share of notable observations with an immature Bald Eagle and the first record of a Barnacle Goose for Alabama. This goose, which is in the same genus as the Canadas, derives its name from the old Norse belief that it grew from barnacle shells adhering to old, water-soaked logs and other pieces of wood found in the sea. Later its true breeding grounds were located in Eastern Greenland and islands in the Artic Ocean, usually on inaccessible cliffs. It winters in Scotland and other places in Northern Europe and is reported as a rare winter visitor to North America. (See Kortright, Francis W., The Ducks Geese and Swans of North America (1942), pp. 110-112; Austin, Oliver L., Jr., Birds of the World (1961), pp. 66-67; Hanzak, J., The Pictorial Encyclopedia of Birds (1967), p. 106.) At Wheeler it was observed in a large flock of Canada Geese in Limestone Bay through telescopes by five members of one of the field parties. It was approximately 2/3rds the size of the Canadas and showed the full white face with dark neck and breast.

The Bald Eagle was one of two and possibly three immatures reported at Wheeler during December, 1969, and January, 1970. There were definitely two because two were seen simultaneously on several occasions. Thomas Z. Atkeson, Jr., manager of the refuge, reported that Bald Eagles nested there through 1947 but have not been known to do so since then. For years they were reasonably common during cold weather periods, but numbers began dwindling noticeably after 1960 so that in recent years there have only been two or three, usually

immatures, using the refuge intermittently through the winter. The last adults sighted were one in April, 1968, and another in April, 1969.

The 50 Avocets off the Cochran Causeway set a new count record at Mobile and was the sixth of the last seven counts on which that basically western shorebird has been reported. The 406 Short-billed Dowitchers and 315 Boat-tailed Grackles on that count set state records in abundance as did the 425 Black Skimmers for the winter season. Mobile Christmas count records were also set for the Semipalmated Sandpiper (498), Snowy Egret (130) and Hooded Merganser (32); and high numbers were recorded for Coots (almost 19,000), Dunlins (663), Shovelers (467), Common Egrets (242), and White Pelicans (108). Other interesting coastal reports included a LeConte's Sparrow at Mobile, 3 Eared Grebes and 7 Am. Oystercatchers at Dauphin Island, and White-eyed Vireos, a summer resident that uncommonly winters on the coast, at Dauphin Island and within the count period at Mobile.

The Green Heron appeared on three counts--Mobile, Dauphin Island, and Birmingham where it was the first inland winter record for the state. Marsh Wrens were noted in good numbers at Mobile where 21 Long-bills and 9 Short-bills were reported; and one Long-bill at Birmingham was its third Christmas count record.

Although the influx of Evening Grosbeaks was much smaller than last Christmas, Purple Finches were observed in larger and relatively high numbers at Birmingham, Auburn and Wheeler Refuge and Pine Siskins likewise on the first two of those counts. The Red-breasted Nuthatch, which often accompanies an invasion of northern finches, was reported on or within the count period of 6 of the 7 counts as compared to 5 out of 7 in 1968, none in 1967 and only one in 1966. The Pine Siskin shows a somewhat similar history.

Among flocking winter species, the 983 Cedar Waxwings at Birmingham set a count record in abundance, and Robins were reported there and at Dauphin Island in large, although not record, numbers for Christmas counts. An unfortunate addition in this category is the large roost of an estimated ¾ million Starlings at Wheeler, which, although less than some of the gigantic roosts in or near the coastal plain, may be a record for the Tennessee Valley.

The over 500 Horned Larks at Jacksonville set a high record for the state outside the Tennessee Valley. Of local significance at Birmingham were 3 Virginia Rails, its first Christmas count record, 3 Catbirds and 5 Yellowthroats, tying the high numbers for those species on the same counts, and 28 Eastern Phoebes, setting an inland winter record in abundance for the state. Of further local interest were the Common Egret, 8 Common Loons and 6 Lapland Longspurs at Wheeler Refuge and a count record of 12 Belted Kingfishers at Auburn. In addition, the Yellow-breasted Sapsucker set winter count records at Wheeler Refuge and Birmingham.

Birds seen on the counts were as follows, those indicated by the symbol * being seen during the count period (Dec. 20 through Jan. 1) but not on the count date:

THE WINTER MEETING

At Gulf Shores January 23–24–25, 1971 Holiday Inn Headquarters

THE SPRING MEETING

Wilson Ornithological Society
Dauphin Island
April 21, 22, 23, 24
Headquarters at Mrs. Storey's

Except where described below, the count areas were the same as set forth in the report of the 1968 Alabama Christmas Counts in Vol. 17, No. 1. Details respecting the counts (all taken in circles of 15-mile diameter except where indicated) and participants (names of party leaders italized where reported) were as

Wheeler Wildlife Refuge: Dec. 20, 6:15 AM to 5:15 PM. Clear to partly cloudy in late afternoon; 22° to 50°; winds N, 2-10 mph. 18 observers in 4 parties; 36 party-hours (24 by car, 12 on foot); 152 party-miles (143 by car, 9 on foot). Count centered in Tennessee River 3-1/2 mi upstream from mouth of Flint Creek and extending northward to 3 mi N of Mooresville, southward to Somerville, eastward to Cotoco Creek, and westward to 1 mi W of US 31; sloughs managed for waterfowl 55%; fields and pastures 20%; creeks and river 10%; deciduous woods 10%; town and suburbs 5%. (Although perimeter of count area changed, area covered was substantially same as in 1968.) Crow roost separate from estimated 1 million blackbird-starling roost. Participants: Thomas Z. Atkeson, Jr. (refuge manager), Richard Bays, Michael L. Bierly (compiler), J. Homer Blackwood, Jack N. Carusos, Walter F. Coxe, Wallace Dreyfoos, Leo Durden, David and Kenneth T. Knapp, Donald McDonald, Robin McDonald. Bobby Meadows, Elberta G. Reid, Robert R. Reid, Jr., Thomas P. Sandlin, Charles T. Traylor, and George Williams, Jr. (Editor's note: Emmett N. Waldrep of the Wheeler Refuge staff participated in the 1968 count but was inadvertently omitted from the participants listed last year.)

Birmingham: Dec. 27, 5:00 AM to 5:30 PM. Clear with heavy frost; 24° to 54°; winds northwesterly, 4-10 mph; water levels very low, lowest ever at Lake Purdy. 43 observers in 11 parties and at several feeders; 114.5 party-hours (43 by car, 71.5 on foot); 392 party-miles (339 by car, 53 on foot). Participants: Gussie Arnett, I. Russell Bailey, Ir., Naomi G. Banks, Andrew K. Bates, Raymond D. Bates, Brian and Debbie Bennett, Mary I. Burks, Robert E. Burks, Ir., G. Bradley Carlisle, Greg Carlisle, Frederick T, Carney, Walter F, Coxe, Michael Creel, Alma and C. Larry Cullen, Larry Ferguson, Corrine Glaze, L. Ed Greene, Dan C. Holliman, John M. Imhof, Thomas A. Imhof (compiler). Helen H. Kittinger. Richard J. and Ronald D. Kittinger, David and Kenneth T. Knapp, Christine Leake, John Lester, George F. Maynard, Donald, Renee and Robin McDonald. Ann Miller, Morton H. Perry, Margarette K. Persons, Millard F. Prather, Elberta G. Reid, Robert R. Reid, Jr., Pat A. Riley, Rose Schauss, James W. Shepherd, and Adele West.

Jacksonville: Dec. 23, 7:00 AM to 4:00 PM. Misty AM, cloudy PM; 31° to 52°; winds E to W, 4-8 mph. 8 observers in 3 parties; 18.5 party-hours (7.5 by car, 11 on foot), 135 party-miles (122 by car, 13 on foot). Count centered at Jacksonville Town Square and including Jacksonville State University campus. Choccolocco Valley, and Fink's and Boozer's Lakes; woodland edge 38%; fields and pastures 30%; lakes 28%; residential 4%. Participants: Richard E. Ambrose (compiler), William J. Calvert, Jerry A. Clonts, J. W. Johnson, Kenneth E. and Kenneth T. Landers, Sue Levdecker, and C. L. Simpson.

Auburn: Dec. 29. Clear to almost completely overcast: 42° to 51°; winds southerly, 2-7 mph. 8 observers in 3 parties; 24 party-hours; 65 party-miles (60 by car, 5 on foot). Participants: Darrel L. Bateman, Earnest Corley, Julian L. Dusi (compiler), Rosemary T. Dusi, Ted Ellis, William Goslin, Marjory C. Lyons, and L. A. Wells.

Eufaula Wildlife Refuge: Dec. 22. Overcast: 40°: winds NW. 5-10 mph; about 1 inch of rain on previous day. 12 observers in 4 parties; 32 party-hours; 69 partymiles (58 by car, 8 on foot, 3 by boat). Count restricted to refuge area, which is located in Alabama and Georgia and includes the Chattahoochee River, Lake Walter F. George, and Wylaunee and Cowikee Creeks. The refuge contains about 17.5 sq mi of land, almost equally divided into cropland, woods and marsh or swampland, with about 9 sq mi of water and mudflats. The impoundment was several feet lower than normal, exposing many mudflats. Participants: Julian L. Dusi (compiler), Rosemary T. Dusi, Ted Ellis, William Goslin, Joe Gregory, Dennis Holland (refuge manager), Florence Lynn, Marjory C. Lyons, Gus Saville, Dan Searcy, L. A. Wells, and B. F. Young.

Mobile: Dec. 20, 5:00 AM to 6:00 PM. Cloudy to partly cloudy; 50 to 59; winds NE, 5-15 mph. 23 observers in 9 parties; 76 party-hours (48 by car, 28 on foot); 439 party-miles (413 by car, 26 on foot). Participants: Lois Almon, Lois P. Archer, Clara L. Caffey, P. Fairly Chandler, Fr. J. L. Dorn, S. J. (compiler), Mary A. Gaillard, M. Wilson Gaillard, Arthur and Nancy Garrett, Sybil C. Hanks, Richard E. Hayward, Ir., Verda Horne, Steffi Jones, Edwin Laroux, Louise N. McKinstry, Margaret E. Miller, Genevieve and James R. Spafford, Alice and Howard Tait, Elizabeth R. Toenes, William Tonsmeire, and Randy Wendt.

Dauphin Island-Bellingrath Gardens: Dec. 27, 6:30 AM to 5:30 PM. Clear and cold. 16 observers. Participants: Lois Almon, Clara L. Caffey, Fr. J. L. Dorn, S. J., Mary A. Gaillard, M. Wilson Gaillard (compiler), Sybil C. Hanks, R. D. S. and Steffi Jones, Louise N. McKinstry, Margaret E. Miller, Awilda T. Mitchell, Caroline B. Smick, Genevieve and James R. Spafford, William Tonsmeire, and Randy Wendt. .
